LAMIERE BUGNATE e MANDORLATE - EMBOSSED METAL and TEAR PLATES

Le *lamiere bugnate* sono utilizzate per passerelle, divisori, rivestimenti decorativi. Sono disponibili *tonde, a rettangolo, a rombo e a losanga*. I materiali più utilizzati sono l'acciaio inox (AISI 304, AISI 316, AISI 321) e l'alluminio.

Le *lamiere mandorlate* sono prodotte in acciaio AISI 304 - 316 e alluminio. Grazie alle loro caratteristiche di autoprotezione e di indeformabilità sono lamiere indicate per piani di calpestio che non necessitano una particolare manutenzione (ambienti industriali, scale...). DIMENSIONI LAMIERE : *lamiere bugnate* : mm 1000x2000 - mm 1250x2500 - 1500x 3000. *Lamiere mandorlate* : mm 1000x2000 (acciaio INOX e alluminio) - mm 1250x2500 (solo alluminio) e 1500x3000 (solo alluminio). Embossed pattern is used for footbridges, panels, decorative coverings. They can be *round, rectangular, pyramid and oblong*.
